

Thank you for Your FFC ruling for Video Relay Service systems...I think One of them(VRS)100 VP AND 1000 VP should be match for use telephone instead of IP Address... Sorenson does not allow My friends who have that vp and can't touch or call me they don't want to call with ip address.. I hope you will work out with VRS together please..... make so easy Deaf people will be pleasure with your help... Thank you, Andrew
